The graphics and animation has been extensively optimized, making sure combat now has a realistic and lifelike feel. This feature was especially helpful at Blizzcon 2014, when a new cinematic style was introduced for the Warlords of Draenor beta and it is still being used as a feature in the live game! Check here for a short demo of these graphics optimizations: <http://www.worldofwarcraft.com/video/?id=1789>.
